

DOUBLE J FARMS

52nd Annual Bull & Bred Female Sale

FRIDAY, JANUARY 23, 2026 • 12:00 NOON • GARRETSON, SD
SELLING 99 SIMMENTAL, SIMANGUS & ANGUS LOTS!

SALE LOCATION:
48672 252nd Street
Garretson, SD 57030

Welcome to the Double J Farms 52ND ANNUAL PRODUCTION SALE!

2026 SALE PRIZES

Customized Wind Sock – Everybody who previews the cattle before sale day will be entered into a drawing for a customized Wind Sock.

Sun Tag Ultimate Calf Sled – Buyers will be eligible to win a Sun Tag Ultimate Calf Sled.

2025 has been quite the year in the beef industry as demand is at an all-time high, creating one of the most promising market environments we have seen in decades. With cow numbers at historic lows, there has never been a better time to invest in high-quality genetics that pay dividends and reward the hardworking beef producer in the end. Through all the shifts in the industry, our commitment has stayed the same which is to produce high-quality cattle that meet production standards while prioritizing the value of strong relationships with past, present, and future customers.

This year's offering is an exceptionally uniform set that showcases the quality and consistency we have strived to produce throughout the past five decades. We are proud to be recognized by the American Simmental Association as one of the top Dedicated Performance Advocate Herds! This honor reflects the time and dedication we put into recording complete and accurate data on every animal on the farm, strengthening our program and providing confidence in your investment. All of the cattle have genomically enhanced EPDs and all are parent verified. Every black bull in the offering is homozygous polled and homozygous black, and our red cattle are all homozygous polled and non-diluters. Our females are held to strict fertility standards and are expected to pass on performance, soundness, docility, and strong maternal traits, providing the foundation for long-term success.

Come anytime to view the cattle in person and be entered to win a customized wind sock. Your satisfaction is important to us, we are here to assist you with your selections prior to sale day! Videos of the entire offering will be available on DVAuction and on our website at the beginning of January. We hope to see you in person at noon on Friday, January 23, 2026, but if you cannot make it, the sale will be broadcasted live through DVAuction. Thank you to our family and friends for their help with this set and for standing behind our program for the past 52 years. We look forward to seeing you on sale day!

Thank you for being our partners in success!
Double J Farms – Kipp Julson

52nd Annual Bull & Bred Female Sale

Announcements:

Any announcements made on sale day take precedence over printed material in the catalog or other printed material associated with this sale. Anyone visiting the farm or attends this sale does so at their own risk and Double J Farms will not be held responsible for any personal injury.

Updates & Sale Order:

Additional information, videos and the sale order will be posted on our website at www.doublejsimmentals.com and www.dvauction.com. Any postponements will be posted on DVAuction, Double J Farms Facebook page, our website or you can contact a representative. Pictures were taken on 12/1/2025 and Final Data was taken on 11/21/2025.

EPDs:

Bred female EPDs were updated on 11/18/25 and bull EPDs as of 11/25/25 are provided. Please note that EPDs may change from the time printed until the registration papers are transferred.

Terms & First Breeding Season Guarantee:

All cattle sell under the Suggested Terms and Conditions of their respected breed under the American Simmental Association or the American Angus Association and sell with a registration paper. The bulls selling will be guaranteed for their first breeding season. Seller will not be responsible for more than the purchase price should an issue arise. If a problem with your purchase occurs, contact Double J Farms immediately. All claims must be submitted by December 1, 2026, with the salvage value of \$2,500 on all bulls selling. Bulls were weaned in August alongside their dams with nose weaners. They were brought home to the lot and developed slowly and not over conditioned. As proven with our Post Weaning Gain (PWG) and Weight per Day of Age (WDA), we do not believe in feeding a high corn ration for a short period of time to show a high PWG. Our PWG is from weaning date to yearling weight date. Bulls will be wintered, semen evaluated, have a complete vaccination program, magnets and guaranteed with delivery available. All bred females are sold under the condition "safe in calf" by a licensed veterinarian at the time of the sale. The ultrasound results are reported as accurately as possible. No guarantee is given that bred females will deliver a live calf. Females become the responsibility of the buyer once the sale closes.

Vets:

Sweet Grass Veterinary Service

Erik Holum 605-928-8387

Windy Ridge Vet Clinic

Brett Kroeze (vet & embryologist) 507-825-3336

Twin Lakes Animal Clinic

Dave Maier 605-256-0123

Insurance:

We take every precaution for the care and safety of your purchases.

Insurance will be available on sale day and need to be binded within three days. We encourage you to take out insurance on your purchases.

Martin Trudeau Insurance 1-800-920-0872

Colton Tobin 605-933-9501

Retained Semen Interest:

Double J Farms retains 1/3 semen interest/revenue on any bull selling and in herd use semen. Any semen collection for herd use would be at our expense and the buyer's convenience.

Sale Day Phone:

If you would like to bid by phone, please call a representative or myself with plenty of time ahead the sale to ensure we have your needs covered. We will guarantee our sight unseen selections for you.

Trucking:

We will deliver most of our bulls ourselves after they are semen tested in April. Truckers will be available to go anywhere needed at a minimum cost outside our free trucking area. We would appreciate pick up or delivery arrangements of the females to be made within a few days of the sale.

Recognized by the American Simmental Association as one of the top Dedicated Performance Advocate Herds!

TOTAL HERD ENROLLMENT

THE is a whole herd reporting program that benefits participants by providing improved female records, more informative EPD, and faster genetic improvement.

COW HERD DNA ROUNDUP

CHR facilitates DNA testing on entire cow herds to improve female trait predictions, improve all genomically enhanced EPD, and establish parentage markers on the entire cow herd for easier parent verification in future calves.

CALF CROP GENOMICS

CCG provides members with the opportunity to genotype entire calf crops, allowing participants to make informed genetic selection decisions based on the most accurate predictions available.

Kicking off the 2026 lineup is a true baldy standout loaded with mass, muscle, and maternal strength. His granddam is the great Z228 cow that should have been flushed long before selling, the decision to flush her daughter was a no-brainer. The result speaks for itself as Lot 1 ranks #1 YW, #2 WDA, #3 PWG, and #4 WW, but seeing him in person truly shows the depth, shape, and power he brings. This cow family has been favored by leading cattlemen for years, and he continues that tradition.

Stemming from the great Z228 cow family again, whose 12 calves averaged a 105 WW ratio. Lot 3's dam has now entered the donor pen as she has already produced six calves with a 109 WW ratio and two bulls posting a 107 YW ratio, proving this family consistently passes on high growth and efficiency. Though slightly younger, Lot 3 still ranks in the top 10 for YW, PWG, and WDA!

Owned by Double J Farms

Lots 22-25: Full Brothers

Assurance consistently stamps his calves with length, stature, dimension, and docility, and he backs it up as a trait leader for WW, YW, and ADG. These full brothers showcase that

same uniformity, with all four large-framed bulls posting at least 10 EPDs in the top 35% of the breed. Three of the four flush mates land in our top 10 for WW, and Lot 23 adds even more by ranking #3 for both YW and WDA and #5 for ADG. This mating delivers power, performance, and consistency from every angle.

The next three lots are sired by Power Ball, a sire originating from the late JD Anderson program and now walking the pastures for Rod Gilliland. Power Ball is known for transmitting growth and carcass merit, and Lot 44 exemplifies those traits with added eye appeal, rib shape, and stoutness. He further balances his standout phenotype with an EPD profile that aligns with his performance. His dam is a full sister to Outlaw and has also produced a herd sire that sold to Mandan Lake Simmental Ranch in North Dakota last year, reinforcing the strength of this proven pedigree.

This standout heifer is a daughter of the legendary X011, a prolific ASA-recognized donor with 116 calves to date. She posts top WW and YW ratios from a cow family built for performance and consistency. This Exclusive daughter combines a solid EPD profile with great mass, striking eye appeal, and longevity set in.

All females have had pasture exposure to these great sires.

Her dam was the #2 WW heifer in 2018 and has since posted a 107 WW ratio on six calves and a 104 YW ratio on three bulls, including a top seller in 2024. This female is cut from the same cloth, matching her dam's early success by earning #2 for WW with a 116 ratio and #3 for YW with a 117 ratio. Powerful, well-balanced, and maternally backed, she's early-bred to Magnifique for predictable calving ease and long-term value.

These two daughters showcase Talon's practical, balanced influence, offering efficiency, ease of management, and strong visual appeal. The females throughout the offering come from the heart of our program, and there has never been a better time to invest in high-quality genetics!

Accredited Genomic Plus

For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

Accredited Terminal Mate

Just like an ATM machine makes it simpler to access your cash, the ATM logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

KBHR KEYNOTE K229

ASA # 4104347

A.I Reference Sire

From an impressive Cowboy Cut dam with six calves and a 111 WW ratio, this female improves on that mark with a 113 WW ratio! Her sister in the replacement pen ranks at the top this year, showing consistency carries through.

HOOK'S ZURICH 18Z

Maternal greatness defines this decade-old matron. Pictured at 12 years of age, Zurich is massive in her body shape, bold in her rib design, and continues to exemplify the structural integrity and longevity that few cows maintain through years of production. She has 13 AI-sired calves to date, with 11 of them at a 109 WW ratio and 9 at a 107 YW ratio, highlighting her consistency and performance. We set out to take this elite female's functionality and proven productivity to the next level by mating her to a lineup of performance-driven sires designed to offer outcross genetics and push any operation forward. Zurich has more than delivered, with exceptional flush results and impressive conception rates!

3 IVF Embryos • When we purchased Zurich, we knew Dakota Outlaw was the obvious choice when flushed. A cornerstone in Midwest seedstock programs, Outlaw is known for his soundness and the extra muscle he consistently passes to his calves. His progeny remain in high demand for their durability, performance, and ability to advance functional, high-quality genetics. Now deceased, with limited semen available, this mating captures genetics that are increasingly rare and highly sought-after.

3 IVF Embryos • Jawbreaker stamps his calves with extra muscle, balance, and standout style, all backed by a strong EPD profile. His progeny consistently deliver performance, presence, and market appeal, with last year's calves topping sale reports. This mating to Zurich adds even more functionality and performance, sure to capture the attention of many cattlemen.
